

AMENDMENTS TO THE CLAIMS

This Listing of Claims will replace all prior versions, and listings of claims in the application:

Listing of Claims:

Claim 1 (amended) An illuminant design device, including:

- A a design device body, being transparent or semi-transparent;
- A a battery container ~~on one~~ located on a side of the design device;
- A a battery plug with cathode and anode points at the bottom of the battery container; and,
- A a battery ~~put~~ inserted into the battery plug and electronically connected to at least one LED.

Claim 2 (amended) ~~Upon patent application of the above mentioned illuminant design device,~~ The illuminant design device as recited in Claim 1 where the device itself ~~should at least have the capacity for~~ has mounted thereon at least one exhibit.

Claim 3 (amended) ~~Upon patent application of the above mentioned illuminant design device,~~ The illuminant design device as recited in Claim 2 where the said exhibit ~~can be~~ includes an object chosen from the group of jewelry, gift, artifact, glassware, picture, and ~~any kind of a mineral,~~ The minerals include wherein the

mineral includes natural, artificial, semi-gem, natural and human-made crystal, amber, colored glaze, transparent and semi-transparent minerals.

Claim 4 (amended) ~~Upon patent application of the above mentioned illuminant design device,~~ The illuminant design device as recited in Claim 3 where the exhibit can be audible or not, flavored or not, solid, liquid or the mixture of solid and liquid.

Claim 5 (amended) ~~Upon patent application of the above mentioned illuminant design device,~~ The illuminant design device as recited in Claim 1 where the said exhibit ~~can be~~ is sealed inside the design device or ~~be regarded as one unit with the integrally formed with~~ design device. ~~The exhibit can be capped or uncapped inside of the design device or just be set on the device.~~

Claim 6 (amended) ~~Upon patent application of the above mentioned illuminant design device,~~ The illuminant design device as recited in Claim 2 where the said exhibit ~~can be~~ is set on any kind of surface, suspended, or soaked in liquid partially or completely.

Claim 7 (amended) ~~Upon patent application of the above mentioned illuminant design device,~~ The illuminant design device as recited in Claim 1 where the

battery container ~~can have~~ has a timing device electronically connected to the LED lamp bulb.

Claim 8 (amended) ~~Upon patent application of the above mentioned illuminant design device,~~ The illuminant design device as recited in Claim 1 where the LED lamp bulb may have has a timing device inside electronically connected to the LED lamp bulb.

Claim 9 (amended) ~~Upon patent application of the above mentioned illuminant design device, it should have~~ The illuminant design device as recited in Claim 1 where the design device includes at least one LED.

Claim 10 (amended) ~~Upon patent application of the above mentioned illuminant design device,~~ The illuminant design device as recited in Claim 1 where the battery container can be regarded as is formed in one unit with the design device.

Claim 11 (amended) ~~Upon patent application of the above mentioned illuminant design device,~~ The illuminant design device as recited in Claim 1 where the design device can be of any kind of may be formed in a varying shape.

MR3003-3

Appln. No. 10/760,415

Reply to Office Action of 4/29/2004

Claim 12 (amended) ~~Upon patent application of the above mentioned~~
~~illuminant design device,~~ The illuminant design device as recited in Claim 1 where
the design device ~~can be of many~~ has varying designs formed thereon.

Claim 13 (canceled).

Claim 14 (amended) ~~Upon patent application of the above mentioned~~
~~illuminant design device,~~ The illuminant design device as recited in Claim 1 where
the battery container ~~should have~~ has at least one electricity plug.
